The Universal Circle of the Ambassadors of Peace has as goals:

**“To create a UNIVERSAL BOND
OF PEACE”**

between the Actors, Craftsmen and Organizations of Peace and International Families of Peace quite simply!

Ambassadors of Peace :

are Nominated for their acts, their Spirit, their Words, and become examples alive of Peace, Fraternity, humanity, in their daily life.

They are alive examples of PEACE where that they are, so much in their family, professional, associative Daily newspaper where they are, so much on the regional plan, National, which World.

They are the human torches of Universal spirit of Peace and Eternal.

Luis Arias Manzo Chile

President and founder "poets of the world."

2014. To the poets of the world, that, despite these difficulties, we are already more than eight thousand poets members. And 2014 will host the second international meeting of poetry: 'after the smell of the poet, now in Colombia' (second half of May), the third meeting of the poets of the world in Cuba: "La Isla in verses" (from April 30 to May 9) and the tenth international meeting of poetry to the Chile: "Following in the footsteps del Poeta" (second half of October).

And other projects: meetings, recitals, competitions, festivals, etc., already we are inform through our pages and social networks. There a few years ago I wrote the following paragraphs, is worth remembering to realize that time passes quickly, but the realities are maintained, that the voice of the poet is always necessary:

The poet is a special entity; the gift of making the word something beautiful that goes beyond the simple meaning when it is bare, the poet saw how that makes it spectacular, beautiful and strong. For the time in which we live, it is necessary that the man manages to understand through dialogue, but the sound of the guns prevents that we listen and then desperately needs to exceed the voices and the roar of the cannons, and the poet knows.

Live today the death of a phase process degenerate and the birth of a new era in which the poet has a decisive role to play. The poet cannot be left behind, the poet must go in first line, if it does not, it is that it is not a true poet, in all cases, is not a true "poet of the world".

<https://www.youtube.com/Ariasmanzo>

As something concrete in this struggle for life and peace, I noticed the arduous task of uniting the world poets who embrace the ideals of liberty, equality and justice, and therefore, I created 'poets of the movement of the world' in setting me an ambitious goal: turn the word into a real force capable to influence the destiny of the world and in the balance of the planet. So, when our voices resonate in the cold Palace of power and also to the area that the poet cannot miss, we must be able to propose a route taking us outside the State of decline that lives in our society.

I do not think that the poets is an ad hoc group or have a gift that enables him to be above others, to make the word "something beautiful". The poet is just a listener, a decoder, an articulator of what is at the heart of every human being. Take the word of another, which itself, is to leave all those signals that it has been removed now. And it only temporarily until any man regains the gift which he determines as such: the self poetic, which is still beyond rational being.

Because the first allowing it to transcend the second to leave the reason for which being that so far: a mechanism so that some overlap more. And if 'poetry' understood as human essence, ceases to be a particular asset to have its functionality in each, in its true point of confluence with the universe of which he was part.

Hello!

That this day is perfuming, bright, brilliant and perfect for us all.

It was a beautiful week here in Guaratuba.

We organized a "March for the culture of peace" by the international association of poets Del Mundo for the State of Paraná, in partnership with the Ministry of tourism and culture of Guaratuba, which featured the presence of hundreds of people of all ages.

There was the participation of schools, clubs of Service, social entities, military Police, Civilian Police and trade in general. Everything was wonderful that day from November 05 to celebrate the national day of culture,

to do this, we have chosen this date for the completion of the hike.

Coincidentally my birthday 54 years.

That same day I celebrated my 23 years of artist; 21 as a writer and 06 years as chef and pastry chef. These are my professions. Thank you.

What is happening in my life comes from God, God will provide and nothing lack us.

Tanks very Much.

When the ambassadors of peace (CUAP) Fatima Saad, Claudio Marcio Barbosa and I (we are all poets who are part of the peace group and poetry, here in Belo Horizonte), meet for a circuit of social and environmental Perception, Environment Secretary, arrived at the end of the day, the Site of Mairipuranga - where we are going to carry our message of peace. All three, we have assembled an action complete, but because of the rains, the road had interrupted traffic and then after having faced this rain, we arrived at the place, to bring our moment of peace which was part of the biggest event (circuit). Artist Lara Abreu was also with us and was part of the planned actions.

In these photos that I receive by email, sent by Fatima Saad, I talk to the people there the need for inner peace, as starting point for attitudes. I felt touched by the attention and the interest of those present, the work of the Univ. Circle of peace? One of the things we like to do is to bring peace, the word, for example. There were also music, marketing and distribution of books.

Once give us continuity to this action, we will send you the photos and the new report. We have many plans for the exercise of peace.

In photos, Fatima still and Sampaio and musician Roberto, a friend of Claudio Marcio Barbosa, who accompanied us, with others. It was a wonderful afternoon of celebration and full awareness, which had begun in the morning, with the actions of the Ambassador Fatima Saad.

Big hug and that in 2014, the ambassadors of peace, as the leaders of opinion and positive attitudes, can assist in the sustainability of the planet and be pacifists, who also influence for example.

Pacific Alphonse Hashmi Cameroon

**President and founder of UNIJEAPAJ
Coordinator General of the African school
for peace**

As part of our commitment to the culture of peace, love and justice, Union International of young writers and artists for the love peace and Justice (UNIJEPAPJ) has set up since 2008, a framework of youth training at the emotional, moral and ethical values that can contribute to the promotion of peace in Cameroon and Africa : School for peace (EAP) African.

The UNIJEAPAJ and the EAP was founded at the initiative of a young Rwandan refugee, Pacific Alphonse Hashmi, following the tragic events, injuries, indifference and exile whom he knew from the age of 14 years.

Having known internal injuries, he made a constant bitter, internal injuries which rejected, betrayed people experience. Indeed, the inner wounds destroy intellectual capacity and push the victim to be attacked internally. Once the victim is tired to assault, she assaulted the other. It is as well that the victim loses prospects, and one who was a potential for the development of his nation, becomes a threat and a bomb ticking for his country, his family and his entourage

The EAP is an educational, humanitarian and cultural program and delivers three types of degrees: certificate, the instructor course and the instructor at. African school for peace has currently become a major African institution, and directs hundreds of messengers of peace clubs in several universities, high schools and colleges from Cameroon, Togo, Congo Brazzaville, DRC, Ivory Coast, Togo, Liberia and Rwanda.

Wishing to make the EAP a larger centre of awareness, empowerment of youth, which should contribute positively to the development of his country, we are seeking your support. We are at your disposal for information on the EAP.

In the hope that this request will find a positive response, please accept, the assurance of our highest consideration.

Our dream is to give a chance to every young person to impose itself as a "Leader of tomorrow" by integrating in him the values that we share are: "peace, love and justice" and their corollaries. In pursuing this dream, we want to impose upon us as a platform of intercultural exchange and especially ideas and proposals in all the sectors of our respective countries. With its various programs, the UNIJEAPAJ aims promote the many cultural riches abound youth and who are endangered, facilitated the phenomenon of globalization and the misuse of the internet tool. Which will give an opportunity to influence positively, with his works, its environment.

Furthermore, the program me school African for peace, in its realization, is intended to not only be a youth training program, association leaders, and individuals working for peace adapted to the context of each country, but also a program that responds to a need for application understandable and rational development strategies, to an urgent need for a co-ordination point awareness and responsibility. Here it comes to design an educational activity based on the representation of situations that may be conflicting in young people and adults in the community. It is in this sense that Messenger of peace clubs have been opened in several cities of Yaoundé and Douala (Cameroon) thanks to the favorable opinion of the Department of secondary education and higher education. Also, a dynamic partnership with associations of civil society, international organizations (citing the Office of the High Commissioner of the United Nations for refugees, UNHCR, representation of Cameroon who participates in our different formations of Messenger of peace by sending refugees) and the State.

Founder and President The Love Foundation

There is an instinctive expansion occurring in our individual and collective awareness that is rapidly restoring our right relationship with life. The very nature of life is to give of itself in order to expand more life. From the smallest particle to a cosmic spiral of galaxies, this fundamental exchange of energy and form plays out in a continuous rhythm in which the universe creates, evolves and recycles the building blocks of material reality. In these universal realms, energy is endlessly abundant and available to become any form, eventually returning to its native energy to be born anew in another form. Sharing is simply an aspect of creation where the whole benefits from this dynamic and unconditional exchange.

Our precious earth is a living example of this exquisite and creative exchange. Whether plant, animal or mineral, each requires elements of the other to sustain and evolve life. Life also integrates elements from beyond our planet, like sunlight and electromagnetic influences for example, to ensure the balance of energy is maintained to develop more life. As our orb travels through space, it too has an effect on the celestial bodies it passes by with gravitational forces that nudge and pull upon its neighbors.

We humans are equally and intrinsically a part of this same process. Our bodies come from the ingredients provided by our planet and likewise return to become potentials for another expression, another day. Our very existence relies on the precise flow and interaction of energies that is inherent to this universal blueprint. Perhaps over time we have forgotten our own role in this grand scheme of infinite potential.

We bring one unique element to creation – our conscious awareness of love. Each of us has the ability to think and feel, dream and imagine. Yet beyond even these amazing attributes, we interrelate with all the elements in a distinctive cognizant fashion by understanding that love unites it all. As we interconnect with the countless aspects of energy that make up our existence, we have the extraordinary opportunity to give of ourselves like nothing else can.

When we fully comprehend the limitless abundance we have, given our knowledge, experiences, and ideas, in addition to all the material creations we enjoy, it is obvious that we have much to share. However, knowing who we are is not enough if we do not remember that we are a part of it all. Our love is the component that gives deeper meaning to sharing and makes it easy, joyful and unconditional.

TO ALL MY FRIENDS

I extend my best wishes for the new year
Let's keep hope: 2014 can be a fecund year for
supporting our initiatives and individual and
collective diffusion for Culture of Peace.
That each of us feels, knows, says, and proves
she/he is a real Actor of Peace.

The PEACE is the result of our thoughts, our
movements, our actions... of the images that we
create for expressing it. May we sow many
seconds of Joy and Light and Love, many
minutes... hours, full days and nights... with
conscience and the best spiritual and concrete
choices, with our freedom, inside of us, around us,
in our environment, and, using the tools of the
digital age, through social networks, to the confines
of our planet.

Let's create, share, distribute, propels the Energy
of Life and of Peace.

Reflection:

The bodies of the poor after being objects of
assassination in collective crimes of the wars of
humanity today become banks of bodies for the
only satisfaction of rich countries having developed
a 'tip' medicine...

and there are people to say that everyone
benefits... the donor and the recipient
except that, often, if the receiver was less stuffed,
had appropriate eating habits, often... it would have
preserved his good health.

While the poor refugee from Syria which supports
the disaster, who has lost everything, has no
choice in a so-called civilized society but indeed
ruthless in a humanity that, overall, tolerates and
maintains power the Blaster El Assad... keeps it at
the head of a country where every citizen becomes
the "martyr" of another...

the poor have the choice of poverty, the rich the
duty to reflect on their morbid greed...
